IPL06-10Z

IllumaTech Dimmer Switch for Dimmable LED, Halogen and Incandescent Bulbs

Replace a wall light switch with an IllumaTech dimmer switch. 150W LED, 600W incandescent/halogen, 60Hz, single pole or 3-way installation. Can be installed with or without a neutral wire, use with Decora wallplate or Decora Plus Screwless Wallplate sold separately – White with ivory and light almond faceplates

- **CONVENIENT** – An easy way to create a big impact for a minimal cost and customize the light level in any room, for any occasion and in any home
- **EASY TO INSTALL** – Slim profile for easier installation. Works with existing wiring, no neutral wire required for installation
- **PRACTICAL** – Designed to dim LED bulbs. To find out which LED bulbs pair best, visit our online bulb compatibility tool by clicking the "find an LED bulb" button below
- **CUSTOMIZEABLE** – Adjustable minimum and maximum dimming range for LED bulbs to help eliminate flicker, maximize energy savings, and optimize ambiance
- **VERSATILE** – Control the lights from two locations using the IPL06 in the main location and a 3-way switch (sold separately) in the second location
- **STYLISH** – Easily change the color using IPKIT faceplates available in white, ivory, light almond, gray, black, brown and red
